Milestone Grant Program

A program helping you fund your next security project.

The Milestone Grant Program is a project-unique solution to completely execute the coordination and creation of grant applications for organizations in the United States.* This program allows your organization the ability to secure grants that can be used to purchase solutions that would otherwise be out of budget.

**The Milestone Grant Program is only available for entities in the United States.*

The Milestone Grant Program:

- Identify and match relevant and potential grants.
- Complete and submit grant applications.
- Provide security threat assessment.
- Deliver necessary reporting requirements.
- Respond to any audit requests.
- Apply to cover grant application costs through Canon Financial.
- Manage the extended lifecycle of the complex process.

about the Milestone
Grant Program.

Federal, state, and local grants for many industry solutions.

The grant application and award process can be complex and overwhelming. There are millions of dollars in grant funds never utilized annually. Milestone has the expertise to manage this process with our grant team. We take a leadership role from the start of the application process to its completion. If you want to learn how you can take advantage of the available grant funding, contact Milestone to begin the journey.
